

Greetings,

I am writing to voice my opinion concerning consideration being made to making changes to the way FM radio is heard in my community....proposing to expand Low Power FM (LPFM). My concern is that this would affect the current FM translator service of FM radio station KLOVE (105.5FM) service in the Phoenix Arizona area and we would lose this radio station.

The KLOVE radio station is very important to me and my family. We are regular sponsors of this station and feel it is provides a positive and encouraging message through the music and articles that are played. This is something that we would be very sorry to see go away. It is my choice to listen to the radio station that I want to listen to. KLOVE has provided a choice that is supported by many listeners through regular pledge drives and continually raises enough interest/funding to be supported every year.

Thank you for listening to my opinion.

Sincerely,

Peter Goguen
